

ARPEET ASHOK BHAIKARE

Nagpur, Maharashtra, India

+91-7972723245 arpeet.bhaisare@gmail.com linkedin.com/in/arpeet-bhaisare-a02a061ba github.com/Arpeet-Bhaisare

Software & DevSecOps Enthusiast — Cybersecurity — Data Science — Networking

Education

Indian Institute of Information Technology Bhopal

Bachelor of Technology in Electronics & Communication Engineering

Dec. 2020 – June 2024

CGPA: 6.53, Bhopal, Madhya Pradesh

Dr. Ambedkar College, Nagpur

HSC, Science

2017 – 2018

60%, Nagpur, Maharashtra

Saraswati Vidyalaya, Nagpur

SSC, Science

2015 – May 2016

61.40%, Nagpur, Maharashtra

Relevant Coursework

- | | | | |
|-------------------|---------------------|----------------------------|-----------------|
| • Data Structures | • Operating Systems | Programming | • Data Analysis |
| • Algorithms | • Computer Networks | • Internet of Things (IoT) | • Cybersecurity |
| • DBMS | • Object Oriented | • Machine Learning | Fundamentals |

Experience

Prasar Bharati (All India Radio)

Graduate Apprentice – Telecom & Networking

Sep 2025 – Oct 2025

Pune, Maharashtra

- Worked on broadcasting systems, signal routing, and studio networking in a real-time production environment.
- Handled switching consoles, monitored audio transmission, and supported RJ studio operations.
- Gained hands-on exposure to networking infrastructure, communication systems, and fault troubleshooting.

Hexaware Technologies Pvt. Ltd.

Executive – Technical Support

Nov 2025 (short term)

Nagpur, Maharashtra

- Provided technical support in a domestic voice process, resolving customer issues while maintaining SLA compliance.
- Handled service requests, troubleshooting, and incident resolution with strong communication skills.
- Improved client satisfaction through efficient problem-solving and issue escalation handling.

Cisco Networking Academy

Cybersecurity Intern

May 2023 – Aug 2023

Remote

- Trained in cybersecurity operations, SOC workflows, and network monitoring techniques.
- Performed packet flow analysis and identified network vulnerabilities using simulation tools.
- Worked with intrusion detection concepts, access control, and basic cryptography practices.

Exposys Data Labs

Data Science Intern

Sep 2022 – Oct 2022

Remote

- Built a machine learning model for diabetes prediction using Python, pandas, and scikit-learn.
- Performed data cleaning, preprocessing, feature engineering, and model evaluation.
- Generated insights from structured datasets to support data-driven decision making.

Institute of Electronic and Telecommunication Engineers (IETE)

Electric Vehicle Design Intern

Jun 2023 – Jul 2023

Remote

- Designed and simulated EV drivetrain systems, battery management, and regenerative braking models.
- Worked on system modeling, performance analysis, and safety considerations in EV design.
- Gained exposure to sustainable energy systems and automotive electronics.

Projects

IoT-Based Home Automation System <i>ESP32, IoT, Alexa, Google Home</i>	May 2024
- Developed a smart home automation system using ESP32 enabling control of appliances via voice commands and mobile interface. - Integrated system with Alexa and Google Home for seamless IoT-based automation and remote access. - Implemented device control using IR remote, manual switches, and cloud-based communication.	
Diabetes Prediction Model <i>Python, Pandas, Scikit-learn</i>	Oct 2022
- Built a machine learning model to predict diabetes using healthcare datasets. - Performed preprocessing, feature engineering, and model evaluation using Python libraries.	
Cybersecurity Packet Flow Visualization <i>Networking, Packet Tracer</i>	Jul 2023
- Visualized network packet flow and analyzed traffic using simulation tools. - Configured routers/switches and identified vulnerabilities through packet analysis.	
Cybersecurity Operations & Packet Analysis <i>SOC, Security</i>	Aug 2023
- Monitored network traffic and analyzed security threats in simulated SOC environment. - Applied intrusion detection concepts and access control techniques.	
Electric Vehicle Design <i>MATLAB, Simulation</i>	Jul 2023
- Designed EV drivetrain, battery systems, and regenerative braking models. - Performed simulation-based performance and safety analysis.	
On-Off Control System <i>Arduino, Bluetooth</i>	Apr 2023
- Developed a Bluetooth-based wireless control system using Arduino and mobile app. - Enabled remote switching of electrical devices via smartphone commands.	
Fire Alarm System <i>Arduino, Sensors</i>	Sep 2021
- Built a fire detection system using sensors to trigger alarms and LED alerts. - Focused on real-time safety response using embedded systems.	

Technical Skills

Programming Languages: Python, C, C++, Java, SQL
Data Science & Analytics: Data Analysis, Machine Learning, Pandas, NumPy, Scikit-learn, Excel
Cybersecurity & Networking: Network Security, Packet Flow Analysis, Cisco Packet Tracer, Cyber Ops, Vulnerability Analysis
Tools & Technologies: Git, GitHub, Linux, MATLAB, GNUSim8085, Code::Blocks, MS Office
Core Concepts: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, OOPs
Dev & Web (Basic): HTML, CSS, React (Basics)

Achievements

- Selected for Apprenticeship at Prasar Bharati (Government of India) under National Apprenticeship Training Scheme (NATS).
- Secured All India Rank 198747 in JEE Mains examination.
- Awarded Letter of Merit for completing Cisco Cyber Ops Associate certification.
